FORMER MISSOURI
FOOTBALL PLAYER
SENT TO MENDOTA

William Yates, 28, who has kept things noisy at the police station the past two days with his constant flow of talk, was today adjudged insane and was ordered committed to the state asylum at Mendota. He was taken there late today by Sheriff Boley. Physicians say he can probably be cured.

Yates refused to divulge the home of his parents. He declares his father is prominent around Kansas and Missouri, that he controls more wheat acreage than any man in the country. He is a fine looking young man of athletic build. He tells of having played left tackle on the Mississippi university football team several years ago, says he traveled nine years with the biggest circuses in the country and came here from St. Louis where he had gambling privileges at the Missouri Athletic club. He was employed for several days in the White Construction company here when the condition of his mind became worse and he began to talk constantly.

In his conversation, he appears widely informed on every subject and uses the best of English.

SURPLUS OF ROOMS
FOR WOMEN, FIRST
TIME IN MONTHS

Considerable lessening in the demand for rooms and houses marks the present month because of the conditions existing at the Samson plant. This, however, was not true of August when the official report of the welfare department stated that women, married or single, were having a hard time to find quarters.

For the first time in many months, there is now a surplus of rooms for women. But this numbers only six in August, 99 women inquired for rooms and only 35 were placed. Fifteen houses were listed for rent and 12 were placed, the other three being 3 to 4 miles from the plant. Seventeen apartments were listed and 15 rented.

SAMSON MAN TAKES
GAZETTE POSITION

Roger Clark West, formerly safety engineer at the Samson plant, has taken up his work as circulation manager of the Janesville Gazette. Mr. West is the successor of Claude Feagin, who leaves short for the regular army where he has been commissioned second lieutenant in the transport corps.

Hubert Roy has taken a position in the circulation department, filling the place left vacant by Malcolm McDermott, who has entered the University of Wisconsin.

“GARLAND”

SIMPLE ACTION WEEK

Thursday, Friday, Saturday

No one wants to be lectured or told what to do—we believe the women of this community to be as fine a lot of bakers as can be found in the country, so in arranging for this “GARLAND” Simple Action Week, we are doing something different than ever was done before.

Instead of the old fashioned, formal demonstration idea, we have decided to have just an informal gathering of the “good cooks” of this community, where they can talk over baking problems, and get acquainted with the great “GARLAND” Simple Action Range.

Incidentally too, of vital importance to good cooks will be an opportunity to talk over the new way of cooking, with gas, coal or wood, and to learn something that a great many women of course already know—the difference that a “GARLAND” Range makes in cooking or baking.

We invite you to come in any day during the week. Notice particularly the range set up in our window with its numerous superiorities prominently displayed.

Let us show you how these unusual “GARLAND” features can be applied to your own cooking and baking problems.

More than four million American homes are “GARLAND” equipped—if your’s is not, we want to show you why others are so satisfied.
